Copy trading, made simple.

Your step-by-step guide to mirroring a proven strategy on your own TMGM account.

Copy trading lets you automatically mirror the trades of a proven strategy — **The Wizard** — on your own regulated TMGM account. When the strategy opens, adjusts or closes a position, the same action happens in your account, sized to your balance. No charts to read, no trades to place yourself.

Getting started in three steps

1 Open your TMGM account

Register with TMGM through the link on our website, verify your identity as prompted, and fund your account. Your money stays in your name, with TMGM, held in segregated client accounts — never with PTS Copy. It takes only a few minutes to sign up.

2 Choose the Wizard and set your allocation

Select the strategy and decide how much of your balance to allocate to copying, then confirm. Trades are copied proportionally to the amount you allocate. Tip: start with an amount you are comfortable with — you can adjust it at any time.

3 Trades copy automatically

Once connected, every entry, exit and stop mirrors to your account in real time, 24/7. You don't need to do anything — the strategy trades, and your account follows along.

Open your TMGM account →

Managing your copy

- **Adjust your allocation** — increase or reduce how much you allocate whenever you like.
- **Pause or stop** — pause copying or stop entirely from your dashboard; changes take effect immediately. Pausing does not close positions that are already open, so manage those as needed.
- **Withdraw** — your funds are held by TMGM; you can withdraw through TMGM's process at any time.

Understanding the numbers

Win rate

Share of trades that closed in profit. A high win rate alone does not guarantee an overall profit.

Max drawdown

The largest peak-to-trough drop in equity. Real drawdowns can exceed past figures.

Risk score

A relative indicator of how aggressive a strategy is — higher means more risk.

Copiers

How many people follow the strategy. Popularity is not a measure of future performance.

All figures shown on our website are illustrative and are not a guarantee of future results.

Fees, funds & safety

- It is **free to join** and there is **no fee from us** to copy a strategy.
- You trade on TMGM's normal conditions — spreads, swaps and commissions apply and reduce your returns.
- Your funds are held by **TMGM**, a multi-regulated broker (ASIC · FSC · VFSC), in segregated client accounts.

Risk warning. Trading CFDs, forex and other leveraged products carries a high level of risk and can result in the loss of all your invested capital; losses can exceed your deposit. Copy trading does not guarantee profit, and past performance is not a reliable indicator of future results. Only trade with money you can afford to lose.
